“Stop Illegals from Voting and Block The Biden-Harris Omnibus”

WASHINGTON, D.C. — Today, the House Freedom Caucus released the following official position urging Republican leadership to use our leverage in the September spending fight to prevent non-citizens from voting in our elections and ensure Democrats cannot undermine President Trump’s second term with a “lame duck” omnibus in December.

“The House Freedom Caucus believes that House Republicans should return to Washington to continue the work of passing all 12 appropriations bills to cut spending and advance our policy priorities.

If unsuccessful, in the inevitability that Congress considers a Continuing Resolution, government funding should be extended into early 2025 to avoid a lame duck omnibus that preserves Democrat spending and policies well into the next administration.

Furthermore, the Continuing Resolution should include the SAVE Act – as called for by President Trump – to prevent non-citizens from voting to preserve free and fair elections in light of the millions of illegal aliens imported by the Biden-Harris administration over the last four years.”
